

Behavioral Safety Assessment of Threat (BSAT) (2025-26)

Overview for District Staff and Agency Partners

What is **BSAT**?

Behavioral Safety Assessment of Threat is a violence prevention strategy that involves the identification of a situation that may pose a risk to safety, the determination of a threat's seriousness, and the development of intervention plans that protect potential victims and address the underlying problem or conflict that stimulated the threatening behavior

By considering context and circumstances surrounding potential threatening behavior, teams can evaluate and develop interventions and supports designed to manage and reduce risk.

This **two hour training** is targeted for School Administrators, School Counselors, and school and community agency leaders. Hybrid Option is Available.

September 26th, 1-3 pm
